

Hydrojet Brings You A New Way to Design :

# A Little Water & A Little Imagination

By Laesa Friend

Go into most machine shops and you won't find a single female around! Now go into Randolph County's own Glass Components and then you will find one and not just someone behind a desk, but you will find one who gets down and dirty with the rest of the guys. Meet Leslie Isenbarger! She knows how to design some very unique and one of a kind signs.

Ever saw those signs along side the road or in someone's yard with a personalization of their farm name, business name or just a simple animal design? Well Randolph County has their own creator of those signs. Leslie (Wymer) Isenbarger runs Hydrojet Signs and Fabricating, a division of Glass Components, located on Highway 32 between Winchester and Union City. Leslie and her crew have a Waterjet machine, A CNC machine, that cuts with ultra high pressure water and garnite. With this machine they can cut almost any type of material without producing any heat build up which allows for very precise and distinct cuts. Granite, marble, metal, rubber and glass are just a few of the materials that they have cut with their custom process.

When asked what kind of signs can they produce, Leslie states, "You name it and we

can probably do it. We have thousands of designs that you can choose from or if you have something special in mind we can custom design it for you."

These signs are perfect for gifts for those that are hard to buy for or if you are just wanting a neat and unique gift. "We have designed signs as wedding gifts with the couples name and year they were married," states Leslie.

Leslie, her husband Dustin and her parents, Terry & Darlene Wymer, travel all over the midwest going to several shows to get their product out to prospective buyers. In November, they traveled to Louisville for the North American International Livestock Exposition. This show brings in crowds from all over the United States. Some of the attendees have purchased and ordered custom signs at these shows. Hydrojet now has their designs in states as far away as Montano. Local shows have done real well for them also. They set up at the local 4-H fairs and different agricultural events. If you are interested in a great Christmas gift order now! Contact Hydrojet at 765-584-2125 or visit them at [www.hydrojet-signs.com](http://www.hydrojet-signs.com).
